Bulalacao, Oriental Mindoro

Description:

Bulalacao Bakeshop is owned and operated by Mr. Jess V. Sapungan. At present, the firm has an initial capitalization of P600,000 which is established on 2011 with 7 employees. It produces bread product that caters to the local market specifically in their outlet, the terminal and mega mart. The firm sought the assistance of DOST-MIMAROPA through the Small Enterprise Technology Upgrading Program (SETUP) in 2014 to enhance their production efficiency and product quality. Part of the assistance was to adopt the veggie-bread technology of FNRI. The firm had undergone training conducted by FNRI in 2015. Since then, the firm had been producing malunggay pandesal and sold it in its two (2) outlets in Bulalacao. The product was in demand in the local area however, the firm seldom produced it because it takes long hours to process it.
